

Bubblemaker PROGRAM

Give your kids an extraordinary holiday experience that they will remember for a long time. If they are aged **8 to 9** and are comfortable in the water, they can join the PADI Bubblemaker program.

They get to learn how to use scuba diving equipment specially designed for them and how to breathe underwater, under the supervision of a dive instructor.

They will try diving in a pool or a pool-like environment at a maximum depth of 2m/6ft. The whole session will last approximately two hours and will give them the chance to discover the beautiful marine life on our island.

Discover Scuba Diving

For non-divers aged 10 and above who would like to try diving, this is the perfect program for you. The Maldives is an amazing destination to try diving for the first time, with its warm and crystal-clear water, it will surely be one of the highlights of your trip.

The PADI Discover Scuba Diving will take place in our lagoon . You'll learn how to use scuba diving equipment, breathe underwater and other basic diving skills with a dive instructor. While this is not a certification course, the open water dive can be credited towards a PADI Scuba Diver or Open Water course.

Scuba Diver

CERTIFICATION COURSE

Become a qualified diver in just one and a half days. The PADI Scuba Diver course is an intermediate step to becoming a certified Open Water Diver.

This course includes the three knowledge development sections, three confined water sessions, and two open water dives. You can register with PADI eLearning. You will need to complete both the knowledge review quizzes and the practical skill assessments.

At the end of the course, you'll get a certificate and be able to dive anywhere under the supervision of a dive instructor to a maximum depth of 12m/40ft. If you're planning to take the Open Water Diver course later, this course will be credited towards the Open Water Course.

Open Water Diver

CERTIFICATION COURSE

Dive anywhere in the world with a scuba diving buddy when you get your PADI Open Water Diver certification.

You begin by learning about scuba diving principles and terminology either through PADI eLearning or in the classroom. Through the instruction of a dive professional, you get to know the basics of scuba diving, such as assembling and how to use scuba equipment, buoyancy and safety skills and how to handle common problems underwater.

Also included are five confined water dives and four open water dives. If you've done a Scuba Diver course earlier, it will be credited towards this course. Once you've satisfactorily completed the practical tests and knowledge review quizzes, you become a certified Open Water Diver.
